

NAPSA Research-to-Practice (R2P) Brief

New R2P Brief

Using Standardized Measures for Adult Protective Services (APS) Outcomes Assessment

The National Adult Protective Services Association (NAPSA) Research to Practice Interest Group is pleased to release a new Research to Practice (R2P) Brief titled **Using Standardized Measures for Adult Protective Services (APS) Outcomes Assessment**.

The R2P series links cutting-edge research with everyday practice in adult protective services. This brief and others are available on the **NAPSA website**.

Prepared by:

Pi-Ju (Marian) Liu, PHD
Assistant Professor- Purdue School of Nursing

Pi-Ju (Marian) Liu, PhD, is an Assistant Professor at Purdue School of Nursing and a Faculty Associate in the Center on Aging and the Life Course at Purdue University. She works with Adult Protective Services at the county, state, and national level to conduct applied and translational research around elder justice issues, covering topics on elder abuse, neglect, and exploitation.

Kendon J Conrad, PHD
Professor Emeritus- University of Illinois at Chicago

Kendon J. Conrad, Ph.D. is Professor Emeritus at the University of Illinois at Chicago. His interests are in long-term care, mental health, substance abuse, measurement, and evaluation research methodology. He and Dr. Madelyn Iris and others developed the Elder Abuse Decision Support System which was further developed and field-tested in California as the ISO Matrix with Dr. Marian Liu.

Sara Stratton
Adult Protective Services (APS) Supervisor & Licensed Clinical Social Worker- San Francisco APS

Sara Stratton is an experienced Adult Protective Services (APS) supervisor and a Licensed Clinical Social Worker. She has worked with San Francisco's APS program for 20 years and has provided supervision and development of APS program components and policies and procedures. Ms. Stratton is part of the research team for the Administration for Community Living's Elder Justice Innovation Grant to study APS outcomes for services provided by APS to at-risk adults.
